Akiva Majowka

Web Developer & Graphic Designer

akivamaj@gmail.com · www.akivam.dev · Israel, open to remote

PROFILE

Web developer with a frontend foundation and hands-on experience building independent digital products from concept to implementation. Combines React and modern web technologies with practical understanding of backend systems, CMS architecture, integrations, website building in WordPress and Elementor, visual work in Canva and AI-assisted workflows.

SELECTED PROJECT EXPERIENCE

Gazawood

INDEPENDENT PROJECT · gazawood.com

Built a media platform from zero, including frontend, backend architecture, CMS, media processing and streaming integrations.

Shirmi

PRODUCT DEVELOPMENT

Developed a music-streaming product concept, covering product planning, UI/UX, application architecture and implementation.

Ester Knochen

CLIENT WEBSITE · esterknochen.com

Designed and built a Hebrew RTL personal brand site for a television presenter (*Vort*, Reshet 13 / Netflix), in React with a Sanity CMS the client edits herself, plus a route-level SEO and structured-data layer.

WORKING STYLE

- Independent problem-solving and self-directed learning
- Understanding systems beyond the visible interface
- Visual judgment and attention to detail
- Using modern tools efficiently while owning the result

TECHNICAL SKILLS

- **Frontend development:** React, Next.js, JavaScript, HTML, CSS
- **Backend & data:** Node.js, APIs and integrations, Supabase, MongoDB, media delivery (Bunny Stream, Cloudflare R2)
- **CMS & website building:** Payload CMS, Sanity, WordPress, Elementor, responsive page building and website editing
- **Design & visual tools:** Canva, Figma, UI/UX, visual hierarchy, typography and layout, branding and visual consistency
- **AI-assisted development:** Cursor, Claude Code, AI-assisted development workflows

EDUCATION

Full-Stack Development

INT COLLEGE (MICHLELET NESS)

Full-stack development programme.
